Our Story 02-05 /

Our Heritage 06-09 /

Our Advantage 10-22 /

Our Collection 25-55 /

It is always a difficult proposition to write about the process in developing a piece of garment. It requires sustained and introspective ideas, coupled with a degree of openness. This process by nature should be of clockwork fluidity. What is constantly evolving are the rebels from WIZ. We refuse to conform. We believe in an alternative concept of form and function. We deconstruct and reconstruct. We change perception. We revolutionise workwear.

Our Story

For decades, we have been experimenting with different design and fabric combinations for our ready-to-wear lines. As time goes by, we noticed that our clients not only want their workwear fast, they also want a hand in the designs. This gave birth to WIZ and the WIZ Lab System.

WIZ Lab System allows our clients to choose between one-piece workwear or mix and match different tops and bottoms. The workwear can also be individualised with their preferred colours, fabrics and accessories. Once the design is finalised, clients can pick up their orders within a short time.

Personalised yet fuss-free, the experience has been well received by our clients from Singapore and other parts of the world.

Our Heritage

Founded in 1974, Neptune Workwear is one of the leading workwear brands in Singapore. Our design philosophy is to create workwear that ‘thinks’ of the clients needs. In 2002, we introduced our first ready-to-wear. The collection was rebranded to WIZ in 2012. Our collections have been highly sought after by clients who want their workwear fast and fuss-free.

**1974**

Incorporation of Neptune Fashion House. A tailor shop that specialises in bespoke Menswear.

1982

Neptune opens a second branch.

1990

The company gets handed over to the second generation.

1994

Produces in-house labels for the major departmental stores across the country.

1998

Refocusing of corporate direction to specialisation of uniforms and corporate workwear.

2002

Develops ready-to-wear uniforms in the product offering.

2007

Sets up office in China to oversee production and quality control.

2008

Seeks geographical expansion by partnering agents in Malaysia and Switzerland.

2012

Rebranding of the ready-to-wear collection, the birth of WIZ.

2015

WIZ's first fashion show.

Our Advantage

WIZ offers countless mix-and-match permutations with our hundreds of designs. For clients who want more differentiation, we offer plenty of choices from our extensive range of fabrics, colours and accessories.

FRESH DESIGNS TWICE A YEAR

To keep up with the latest design trends, we offer new designs every half a year.

QUALITY WORKWEAR

Stringent quality checks are carried out at every stage of the production process in ensuring that quality workwear is produced.

WIZ LAB SYSTEM

WIZ Lab System allows our clients to choose between one-piece workwear or mix and match different tops and bottoms. The workwear can also be individualised with their preferred colours, fabrics and accessories.

SMART DESIGNS

We are amongst the first in Singapore to introduce smart designs like detachable buttons/collars, aprons with slits, and smart modifications of ready templates such as adding trim and changing buttons.

AVAILABLE STOCK

We keep stock, making it very easy for our clients to reorder.

WIZ Lab System

Our easy 3-step process allows our clients to choose between one-piece workwear or mix and match different tops and bottoms. The workwear can also be individualised with their preferred colours, fabrics and accessories.

01

SELECT YOUR WORKWEAR

Our service experts will take you through hundreds of workwear options on our WIZ Lab System.

You can then pick from our one-piece workwear designs, or mix and match the tops and bottoms.

02

INDIVIDUALISE YOUR WORKWEAR

To personalise your workwear, you can pick your preferred colour and fabric, and add on any accessories to complement your brand image.

Your company logos or brands can be incorporated into your workwear through embroidery, tabbing, screen printing or badges.

03

PROCEED TO COLLECTION ZONE

After payment, simply pick up your order* at our collection counter.

* Pick-up time varies, depending on the choice of add-ons.

All order details are recorded in our database. Should you need more pieces, simply call us or order online, and we will deliver** them to your doorstep within the shortest possible time.

** Delivery charges apply.

Smart Designs

We are amongst the first in Singapore to introduce smart designs like detachable buttons/collars, aprons with slits, and smart modifications of ready templates such as adding trim and changing buttons. By having workwear that ‘thinks’ for our clients, we ensure the perfect synthesis of form and function.

**SLEEVE OPENING
(EASES ELBOW
MOVEMENT)**

The sleeve openings enhance the ease of movement while at work.

WRINKLE-FREE FABRIC

Most of our shirts are wrinkle resistant, which allow for easy care after laundry.

CONCEALED BUTTONS

Replacement of shirt buttons can be made easily.

ROLL-UP SLEEVE TAB

The roll-up sleeve tab holds a consistent look when the sleeves are folded up.

TOWEL LOOP AND FRONT FLAP

The front flap conceals the apron straps when they are tied in front, while the loop holds towels.

SHIRT BACK INVERTED PLEATS

Shirts with back inverted pleats enhance the ease of movement.

**SHIRT BACK
BOX PLEATS**

Shirts with box pleats give plenty of room for movement.

KEY LOOP

Key loops are made for easy access of key while keeping it safely hooked at all times.

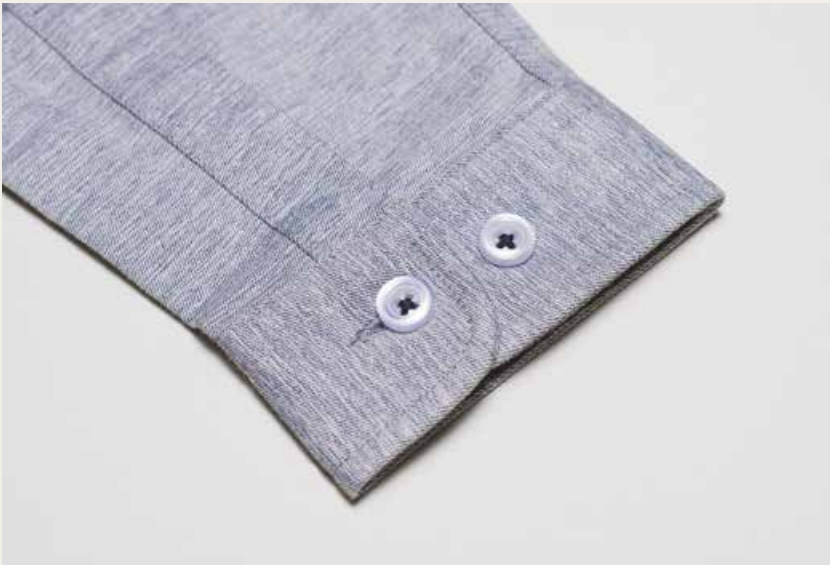

DETACHABLE APRON

Transform from full apron to half apron with a separating zipper. This allows easy adjustment of job function from floor to kitchen duty.

SHIRT GAZETTE

This fashionable detailing adds hip allowance when tucked in or out.

SHIRT CONTRAST BUTTONS

Contrast buttons make an interesting detail on a shirt, it creates a twist on the ordinary.

TECHWEAR VENTILATION MESH

Highly breathable mesh panels at the back and underarms allow heat and sweat to flow out.

**CHEF JACKET
UNDERARM EYELETS**
We incorporated underarm eyelets at the armholes for better air flow. This ensures that the wearer stays dry and comfortable even in the hottest kitchen.

**CHEF JACKET
SET-IN SLEEVES**
The set-in sleeves on the chef jackets are designed to provide stretch and mobility while at work.

**CHEF JACKET
KNOT BUTTON**
There is an option to change the buttons of the chef jackets to cloth knotted or synthetic molded buttons.

VEST SIDE SLITS

Side slits on the ladies' vests allow easier movement and ensures the hem falls nicely on the hips.

ADJUSTABLE BACK BUCKLE

The adjustable buckle on the vest helps to achieve a customised fit for different individuals.

JACKET BACK VENT

The back vent serves as a functional necessity for all jackets, allowing the jacket tails to part and fall gracefully on different bodies.

**PANTS
ADJUSTABLE BUCKLE**
The adjustable buckle acts as a functional detail that allows adjustments of 1 to 2 inches on the waistband.

**PANTS
ADJUSTABLE BUTTONS**
Pants with adjustable buttons are made for easy adjustments on the waistband.

**HIDDEN ELASTICATED
WAISTBAND**
These men's pants feature a redesigned elastic waist for a secure, gentle snug fit. It allows adjustments of 1 to 2 inches on the waistband.

ELASTICATED WAISTBAND

The elasticated waistband is designed for an easy, comfortable fit. It allows adjustments of 1 to 2 inches on the waistband.

DETACHABLE JACKET COLLAR

The detachable collar allows the wearer to customise their jacket by selecting from a variety of coloured collars.
